Office Action Summary

Art Unit: 3753

This action is responsive to the communication filed April 20, 2001.

Claims 3-4 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The recitation "used primarily for mixing cold water and warm water" in lines 2-3 of claim 3 is indefinite in that it is unclear what is being claimed. The recitation "through a ceramic moving element as the case may be" in lines 7-8 is similarly indefinite. The recitation "are ending" in the last line is unclear and grammatically wanting.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --
(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 3-4 are rejected under 35 U.S.C. §102(b) as being anticipated by EP 0 684 416, of record. Item D of EP 0 684 416 constitutes the insertion piece.
